Commissioner for Patents

Applicant's submission of two Information Disclosure Statements on April 21, 2010 is acknowledged. The information disclosure statement filed on April 21, 2010 citing three WO documents fails to comply with 37 CFR 1.97(d) because it lacks the fee set forth in 37 CFR 1.17(p). The information disclosure statement filed on April 21, 2010 citing three foreign language documents, one US patent, and one NPL reference also fails to comply with 37 CFR 1.97(d) because it lacks the fee set forth in 37 CFR 1.17(p). Also, the certification statement made under 37 CFR 1.97(e) does not appear to be proper, because, as noted in MPEP 609.05(a), the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). Thus, Applicant cannot provide a certification statement under 1.97(e) on April 21, 2010 for references first cited on an IDS on October 8, 2009.

The information disclosure statements have been placed in the application file, but the information referred to therein has not been considered.

Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).
